At the heart of our company is a simple ethos -

To deliver on everything we promise
to our customers.

So, we are passionate about what we do. Our un-relenting attention to detail is matched only by our love for top quality design, obsession for innovation and our unbridled love of top quality materials.

For us, it's all about providing the ultimate showering experience - from the smooth running of our shower doors, to the beautiful lines of our design and the quality of our fittings. We are proud to say that our unique approach has resulted in us becoming one of the UK and Ireland's leading showering companies.

We still begin each day with the same commitment and enthusiasm we had when we started. We hope you enjoy experiencing our collection as much as we enjoyed designing them for you.

Michael Hoyne
Founder
Merlyn Showering

...passion meets precision

The **Series Collection**

It's all about the experience

Choose the door to match your space...

showering environments

DESIGNING
THE COLLECTION

1 year

Our designers spend almost 1 year creating and fine tuning each Merlyn piece to ensure the materials and design aesthetics are best in class before manufacturing begins. Our attention to detail means that every aspect of our products are crafted to perfection.

TESTED TO LAST
A LIFETIME

2 months

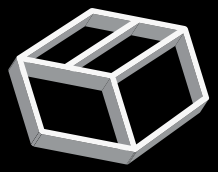
Once the prototype is created, each design is subject to at least 2 months of rigorous testing procedures to ensure that it will last a lifetime. If it is doesn't pass our tests, we start again.

BUILDING
THE COLLECTION

3 months

Our manufacturing process begins and we do some more tests to ensure each piece in the collection is built to last. We even ask independent auditors to test our products some more and ensure they are compliant with Global Health and Safety Standards.

eate the *most luxurious* in the world.



PERFECTING OUR
PACKAGING

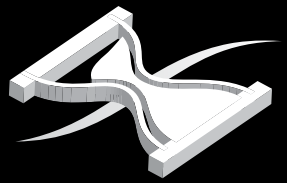
1 month

We spend time checking our packaging and component parts at head office to ensure that once you receive your delivery you have everything available and clearly labelled to install your new enclosure.

AT A SHOWROOM
NEAR YOU

5 minutes

We partner with exclusive retailers throughout the UK, Ireland and mainland Europe to bring our products to you. For a list of our retailers and our ranges on display simply log on to our website **www.merlynshowering.com** to find your nearest stockist.



LIFETIME
GUARANTEE

Lifetime

Once your Merlyn Shower enclosure has been installed, it has been designed to last a lifetime, but if you ever need a new part or advice on your enclosure, our helpful team of experts are on hand to help and answer your questions.

Mershield Stayclear

Merlyn Showering treats every product in the Series Collection with a special protective coating to ensure the glass maintains its sparkle. This comes as standard as part of our on-going commitment to service.

MERSHIELD STAYCLEAR

Mershield Stayclear acts as a protective coating which when applied to glass, helps the glass to remain shiny and new without the need for tiresome cleaning. When cleaned correctly it helps prevent the build up of limescale and soap deposits making the shower glass **"Easy to Clean"**. Please see tips for keeping the glass in pristine condition.

Without Mershield Stayclear Protective Coating

Without Mershield Stayclear protection, water and soap deposits cling to the glass surface causing a build up of grime, requiring more vigorous cleaning.

With Mershield Stayclear Protective Coating

The Mershield Stayclear coating provides a larger contact angle for the water droplets on the surface and makes the drops smaller than drops falling on an untreated surface. This ensures the droplets roll away much faster down the surface, minimising deposits left behind.

Without
Mershield Stayclear

With
Mershield Stayclear

Natural glass surface.

Mershield Stayclear coating creates a smooth layer over the surface of natural glass, lowering surface friction, making it easier for water, soap and lime deposits to run off the glass.

Tips on how to keep your glass in pristine condition:

- It is important to clean your glass after every use - wipe down with a soft cloth.
- Install the enclosure in a well ventilated area.
- Do not allow limescale to build up in hard water areas.
- Ensure that any residual water on the glass is removed after every use.
- Clean the glass regularly using soapy water.
- DO NOT use abrasive products on any surfaces.

Merlyn Lifetime Guarantee

Merlyn is committed to developing products that meet the highest demands in terms of design, performance and quality.

Due to our extreme confidence in our products and our insatiable desire to deliver only the highest level of service, we have created the Merlyn Lifetime Guarantee.

Why choose **10 Series**

10mm **Glass**

Adding to the quality feel of this range, 10 Series products are manufactured using solid 10mm toughened safety glass.

10mm thickness

2100mm

Towering **Glass Height**

With an impressive 2100mm glass height, 10 Series gives you an amazing sense of space when showering.

Glass **Options**

Choose from a range of luxurious glass options; **Mirror, Smoked Black and in Bespoke, Satin** and **Opti White**.

Tested for **Quality & Safety**

All products are rigorously tested by us and by global health and safety experts to make sure they adhere to the highest quality standards. (CE mark info page 135)

Quiet Glide **Wheels**

Using Merlyn's years of engineering experience, the 10 Series also features a quiet glide wheel which softly opens and closes with minimum effort.

A Choice of **Handles**

The 10 Series range gives you a choice of handles to suit your own personal style with both a chrome circular handle and an eyelet handle as standard with your enclosure.

Bespoke Sliding Door and Side Panel with increased height - *shown as Right Hand (R).*

New

10 Series

Bespoke Sliding Door

Create the perfect Sliding Door to suit your space. Merlyn are now offering bespoke sizes for the 10 Series Sliding Door and Side Panels. With extra heights, widths and glass colour options to choose from its time to make your Merlyn shower truly unique to you.

Bespoke Heights:

Max height available is 2200mm with minimum height of 1900mm.

Bespoke Widths:

Max width available on sliding door and fixed panel is 2000mm. Side Panels can be created from 300mm wide up to max width of 2200mm.

For a detailed quote please contact Merlyn directly.

As a general guide, our bespoke is priced at 35% additional to the nearest upper equivalent size of standard Sliding Door and Side Panel. Please *see page 25* for standard pricing.

Glazing Options:
There are 4 glass options to choose from -
Standard Clear, Smoked Black, Satin and Opti-white.
Please note these are additionally priced options.

Glass Options:

Standard | Smoked Black | Satin | Opti-White

Ordering Bespoke Products

To order a bespoke product please supply drawing with accurate measurements to Merlyn at **sales@merlyn.ie** or call the office directly.

Please contact Merlyn for additional delivery charges on Side Panel **sizes over 1200mm** and further terms and conditions.

8 series

FRAMELESS

8 Series Frameless creates an experience that is *elegantly* minimalist.

If your bathroom is crying out for an enclosure that has a minimalist designer frame, the 8 Series Frameless range is the perfect choice. With its trademark chrome hinges and handles, it's the perfect complement for both contemporary and modern styled bathrooms.

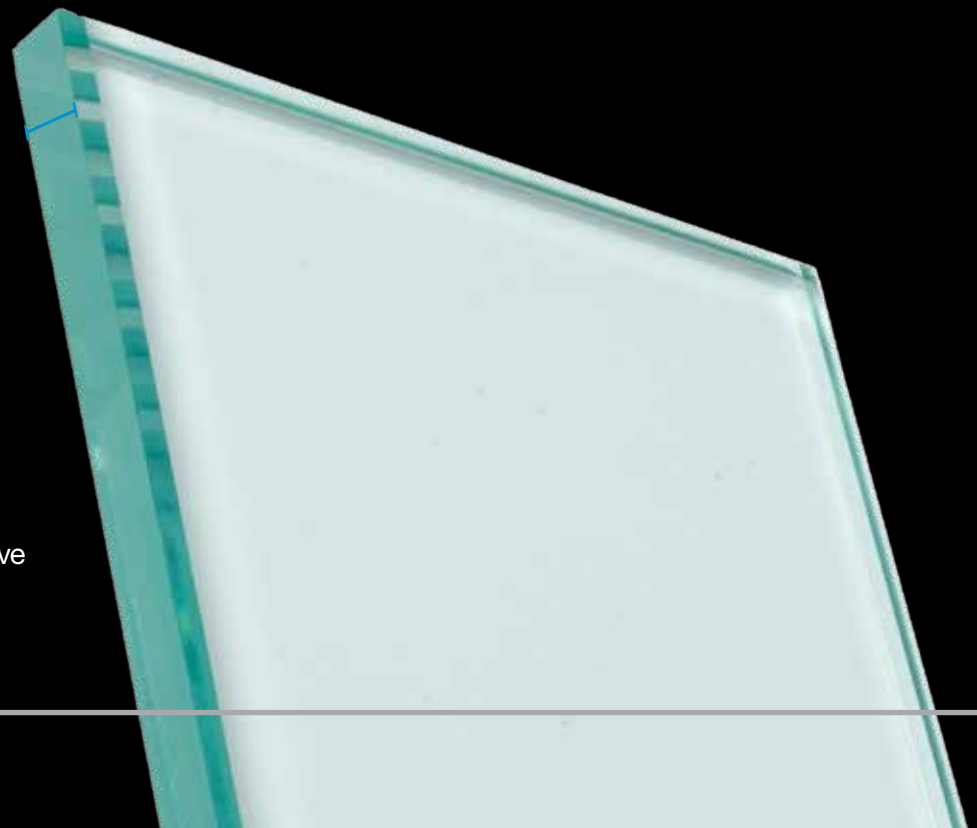
Why choose
8 Series
FRAMELESS



8mm thickness

2000mm

8mm Glass

The 8 Series Frameless range features stunning 8mm frameless glass, standing at the impressive height of 2000mm.

Ultra Slim Hinges

Complementing the designer minimalist look, the ultra sleek one piece hinges on our 8 Series Frameless range are our most innovative to date. The internal mechanics are concealed fully in one elegant chrome plate, which gives you a secure showering environment with added style.

Merlyn Signature **Badging**

For the designer look, the minimalist frame is complemented with subtle Merlyn embossing. A true mark of quality for you to showcase in your bathroom.

Tested for **Quality & Safety**

All products are rigorously tested by us and by global health and safety experts to make sure they adhere to the highest quality standards. (CE mark info page 135)

Horizontal **Designer Handle**

Our exclusive horizontal handle, gives you the ultimate in style and functionality. To add to the designer feel of this product, the horizontal handle offers that perfect symmetry and solid feel to this truly stunning range.

Why choose 8 Series

8mm Covered

The 8mm glass in the 8 Series range is that great balance between our 10mm range and 6mm ranges. The glass is also toughened and tested rigorously to ensure maximum safety.

Every Space Covered

Not every space is the same, so Merlyn have designed a range of Inline panels which can be added to standard enclosures to fit any width from 650mm to 1900mm. These ingenious semi-frameless panels, with a generous glass height of 1950mm, gives you options for almost any width you need.

Great Gliding & **Easy Clean Double Rollers**

This range is famous for its smooth gliding action. This gliding action is attributed to its solid double rollers, which also have the added benefit of quick release action making them easy to clean.

Tested for **Quality & Safety**

All products are rigorously tested by us and by global health and safety experts to make sure they adhere to the highest quality standards. (CE mark info page 135)

Ergonomic **Handle**

The elegantly designed internal and external handles are designed to effortlessly close the shower to a solid clunk each time you shower. With beautiful solid chrome plated finish, it adds a designer touch to your enclosure.

Why choose
6 Series

1900mm

Every Space **Covered**

Not every space is the same, so Merlyn have designed a range of Inline panels which can be added to standard enclosures to fit any width from 670mm to 1915mm. These ingenious semi-frameless panels, with a generous glass height of 1900mm, gives you options for almost any width you need.

Chrome **Dual Handle**

A luxurious chrome dual handle complements the look of this framed range of enclosures with a discreet inside handle and larger external handle for easy closing.

A Great Range
at a Great Price

The Merlyn 6 Series range offers all the benefits, design and technology of the Series collection but at more accessible prices. This range delivers on style, function and value for money.

Easy Clean
Double Rollers

This feature on our 6 Series range is a great addition to making your enclosure the easiest to clean on the market. Simply push and release for easy cleaning in those tricky to reach areas.

Tested for
Quality & Safety

All products are rigorously tested by us and by global health and safety experts to make sure they adhere to the highest quality standards. (CE mark info page 135)

Why choose Merlyn Bath Screens.

9 *Bath Screens to* Choose From

Whether you are looking for a fresh modern angular style shower screen or a minimalist curved frameless Screen, we have a great choice of styles, panel options, open and close features in this range of Merlyn Bath Screens.

Merlyn Bathscreens are shaped and contoured for *space and* elegance.

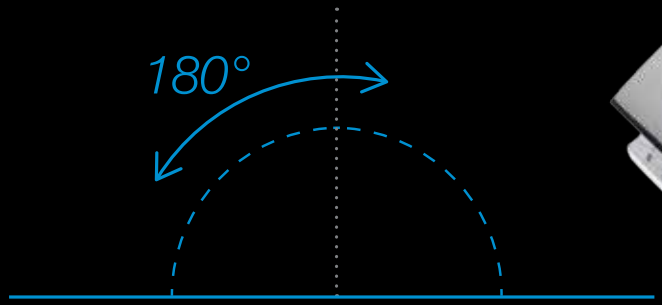
Innovative design and contemporary aesthetics bring this bathroom favourite to life with modern shapes and features to enjoy for years to come. With years of experience crafting the finest showering environments in the world, this collection has been created with the same superb materials and unrelenting attention to detail demonstrated across all Merlyn ranges.

Great Space Saving Features

Featuring both design and functionality the 2 Panel Curved Bath Screen is the ultimate in space efficiency. With a sleek chrome towel rail and fitted internal shelves, this piece combines style with purpose for in bath showering.

180° Inwards Swing

The signature piece of this range, the Two Panel Hinged Bath Screen features a secure 180° inwards swing which means you can position the glass where you can comfortably deflect water into the bath and not on to the floor!



Tested for Quality & Safety

All products are rigorously tested by us and by global health and safety experts to make sure they adhere to the highest quality standards. (CE mark info page 135)

Product Information

- Merlyn Bath Screens are not designed to fit on baths with stepped fronts, roll top rims or integral soap dishes.
- Fitting of screen on baths which have raised head rests or shapes is not recommended.
- There must be no items causing obstruction with the seal and bath, as any of the above may cause leaks.
- When choosing your Bath Screen, please ensure that if your bath has bath handles, that they do not interfere with the bath rim area where your screen will be placed.
- When choosing an in-swing or folding Bath Screen, please ensure your swing area is not interfering with any brassware or internal shower features. Similarly, when choosing an out – swing, please ensure the out-swing area is free from any obstructions.
- The Merlyn MB7 2 Panel Hinged Bath Screen is handed so please ensure you state whether you require a right or left handed configuration when ordering.
- It is recommended that the shower head position is situated on the same wall to which the Bath Screen is fixed and in the centre of the shower area.

Cleaning

- It is important to clean your Merlyn Bath Screen after every use. Wipe down all the glass and metal parts with a soft cloth.
- Do not allow limescale to build up in hard water areas.
- Ensure that any residual water on the glass is removed after every use.
- Clean the glass regularly using soapy water.
- Do not use abrasive products on any surfaces.

Luxurious textured slate trays

Function with style.

MSTONE

LIFETIME GUARANTEE

The MStone double skin stone resin tray is sleek and sophisticated in design. A highly engineered polymer composite tray utilising twin acrylic capped mouldings to sandwich a layer of stone resin into a uniform structure, thus providing a high degree of rigidity and strength combined with a relatively low weight. MStone trays are ideal for 'low level' installation.

Alternatively you can raise your tray to allow room for the pipe work if you cannot run your waste under the floor. In such cases you will need the MStone shower tray panel kit. MStone panel kits are available separately and come complete with Styrene (HIPS – High Impact Polystyrene) panels, legs and clips so you can remove the panels with ease if you need access for maintenance. They are tough and durable making them easy to work with, fit and remove as needed.

Feature Highlights

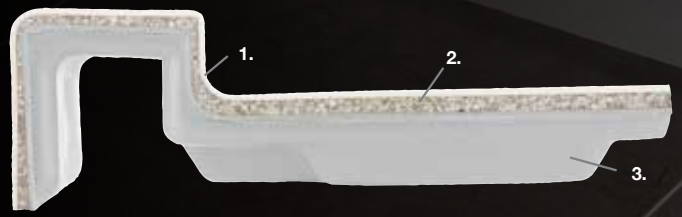
- Double skinned for added rigidity
- 45mm high to achieve minimalist design
- 130mm high including tray panel set
- ABS capped acrylic sheets which has anti-bacterial properties
- Comes with 90mm fast flow waste
- More than 30 sizes available
- Available as low level or with tray panel kits for easy installation
- Shower tray lifetime guarantee

**This guarantee covers manufacturing defects only*

Graduated adjustable leg and easy-fit tray panel kit.

Graduated adjustable leg system. Bottom Acrylic Capped ABS Layer.

90mm fast flow waste, includes hair trap and chrome cover.



1. Top Acrylic Capped ABS Layer.

2. Stone Resin.

3. Bottom Acrylic Capped ABS Layer (encapsulates the tray).

Product Information

We have produced this product section to help you with your purchasing decision.

For further information please contact your local stockist, details of which can be found at www.merlynshowering.com

Product Information

All products are manufactured in accordance with ISO 9002 and EN 14428 and utilise toughened safety glass to EN 12150.

All doors feature adjustable wall profiles to compensate for out-of-true walls and have micro adjustment features for fine tuning to obtain a perfect fit and operating action.

Aluminium sections are extruded to BS 1474 from alloys complying with BS 6463 and coated to BS 6464.

All enclosures, wetrooms and panels are Power Shower approved – will retain water under normal showering conditions.

Water retention is maintained in all products under normal showering conditions.

A selection of Merlyn enclosures are frameless in design. Spray/mist may escape therefore we would recommend use of these enclosures with tiled floors.

Opened cartons can not be returned. Returns carry a £40 box charge or £60 per unit where the sale is less than 30 days old. Returns over 30 days old will not be accepted.

All products are supplied complete with full installation instructions and the necessary fixings.

Check with your dealer for accurate matching of material samples. Product descriptions do not imply the use of precious or valuable materials.

Our policy of reviewing product design and development on a regular basis means Merlyn reserve the right to change product specifications and prices without notice.

Only shower enclosures, panels, (excluding all Mirror panels) MStone shower trays and bathscreens are covered by the lifetime guarantee. Please contact the Merlyn sales team for more details.

Glass shattering and parts subject to wear are not covered by the lifetime guarantee.

For full details on all product ranges please contact Merlyn Showering.

Trays shown in this catalogue are for illustrative purposes only.

Images are for illustrated purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all showering heads in the brochure is for illustrative purposes only.

All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon the company.

Cleaning

It is important to clean your Merlyn shower door and tray after every use. Wipe down all the glass and metal parts with a soft cloth.

Do not allow lime scale to build up in hard water areas.

Ensure that any residual water on the glass is removed after every use.

Clean the glass regularly using soapy water.

Do not use abrasive products on any surfaces.

Install the enclosure in a well ventilated area.

For more information on Mershield Stayclear glass please see page 08 of this brochure.

Information and Maintenance

Always read the instructions on the packaging, chrome is vulnerable to acid attack and some strong household cleaners including strong disinfectants, denture cleaners, hair dyes, wine making chemicals and photographic chemicals may contain acid. These materials may have a varying effect on the surface from black spots/streaks (which cannot be removed) to pitting the surface. Contact with these materials should be avoided.

Important Mirror Information

As with all Merlyn products, the Mirror range of shower enclosures has undergone rigorous testing to ensure it is fit for purpose and complies with our exacting standards.

However, due to the nature of mirrored glass and the process involved applying the mirrored finish to the glass; you may notice some slight blemishes on the mirrored surface. The blemishes you see (if any) are what Merlyn consider acceptable for this type of product and have been carefully assessed by our quality control team before being approved for your home.

Mirror Care & Maintenance Guide

To help maintain and care for your Merlyn Mirror enclosure, we have compiled the following guide to help ensure your new enclosure retains its sparkle for years to come.

It is important to clean your Mirror enclosure after every use. Wipe down the mirror, glass and metal parts with a non-abrasive soft cloth.

Do not allow lime scale to build up in hard water areas.

Clean the glass regularly using warm soapy water only.

Never use, steel wool, scouring pads, acid, alkali, vinegar or abrasives on your mirrored enclosure.

Any stubborn dirt should be wiped off carefully with a non-abrasive cloth, be careful not to scratch the mirror.

Always read the instructions on the packaging.

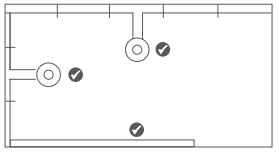
Install the enclosure in a well-ventilated area.

Bath Screen Information

Screen is not designed to fit on baths with stepped fronts, roll top rims or integral soap dishes. Fitting of screen on baths which have a raised head rest or shape is not recommended. Screen must not be impaired by bath handles.

Important Shower Tray Information

Recommended shower head and panel/shower enclosure position for 25mm trays.



Where your shower tray is not fully enclosed please ensure that your panel is at least 3/4 of the length of your tray size.

- Please ensure that the colour and size of shower tray are as per your order before installation.
- You must inspect the product thoroughly before installation. Fitting the product is acceptance of quality.
- Tray heights may vary due to manufacturing tolerances.
- **25mm trays are suitable for a shower head with a flow rate of up to 16 liters per min. If your system exceeds this please contact Merlyn.**
- **Please ensure that the shower head is not positioned directly over the waste as this may restrict flow rate.**

Important

Although shower door and enclosure sizes are related to tray sizes it is important to note that most shower trays are tiled down to the rim, often over an 'up-stand'. The finished installation space may be less than the nominal tray size. Merlyn shower units are made to suit this remaining space.

Tray finish Min-Max
The tray finish applies when fitting a door and a tray. These are the minimum and maximum dimensions that a shower door or enclosure will fit using standard wall profiles.

Tray finish
To find the correct tray finish dimension:

In a recess: Measure from the finished, tiled wall to the opposite finished, tiled wall.

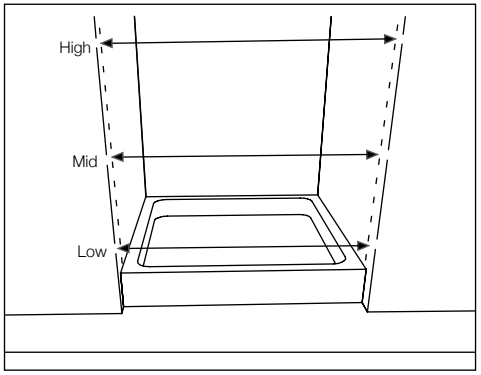
In a corner: Measure from the finished, tiled wall to the edge of the tray.

Note: If the wall/walls are leaning in, this will further reduce your tray finish.

Adjustment
This is the min and max adjustment of the actual enclosure. These are the adjustment dimensions of the actual door excluding the tray. Therefore, these are the dimensions to follow when installing a enclosure in a wetroom application without a tray.

The guide below may be helpful in taking measurements to determine the shower door or enclosure size required. Dimensions given in this publication are in millimetres, are approximate and may vary with adjustment. They are subject to change without notice.

Please note that when a tray is fitted it is essential that the tray is level before any doors or enclosures are fitted.



Recess Location

Take the measurements after the tray is installed and the walls are tiled

CE & EN Information

The CE marking on Merlyn enclosures is a declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation.

The CE marking on a product indicates to government officials that the product may be legally placed on the market in their country. This ensures the free movement of the product within EFTA and European Union single market and permits the withdrawal of the non conforming products by customs and enforcement authorities.

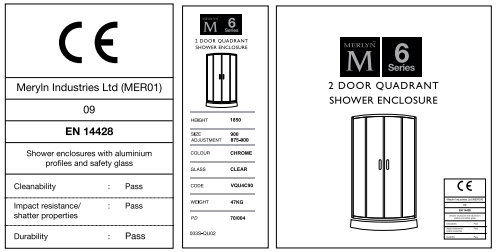
The European Union's "new approach directives" are mandatory on all member countries to enact through national legislation. This legislation requires manufacturers to display a CE marking on their product, packaging and accompanying literature. Where a new approach directive is in force, it is (with few exceptions) an offence to place a product on the market without a CE marking.

The manufacturer is legally responsible for ensuring that the product conforms to the requirements of the directive.

CE marking is one important measure that the EU has adopted to establish the single market and foster economic development for the member states. The objective of the directives is to simplify the movement of goods into and within the EU. This may eventually lead to the free movement of goods throughout Europe as more and more European countries are expected to join the EU.

The European Commission thus refers to the CE marking as a "Passport" which allows products to be freely circulated within the EU single market.

Often consumers will consider CE marking on a product as an indication of conformance to laid down minimum standards and therefore, a minimum level of safety which other products may lack. CE marking is for many consumers a "Symbol of Safety."



Merlyn invests heavily in its product development and as such guarantees that its glass fully complies with regulations and is manufactured in accordance with BS EN 14428.

The rigorous testing of the glass ensures that the endurance, stability and water retention criteria meet high industry standards.

Packaging Guide

Please note from our packaging guide the number of boxes your door will be supplied in, depending on its size and model.

Side panels are supplied in a separate, extra box.

If the enclosure ordered is not listed in the guide, the product, installation guide and fixing kit are supplied in 1 box.

Some products are handed, please state right hand (R) or Left Hand (L) when ordering.

Grey boxes denote location of installation guide and fixing kit
