QUINNradiators

STYLE AND COLOUR TO INSPIRE YOUR CREATIVITY

Choosing a radiator isn't just about heating a room, it's about adding a little flair and personality to complement your décor and lifestyle. Where choice of range is essential, our inspired and distinctive range of design and towel radiators come into their own. Available in a wide range of styles and a full spectrum of colours, Quinn Radiators lets you express your ideas and add real character to your home. We give you the choices you need to create the exact look you want.

As Europe's leading radiator manufacturer, Quinn Radiators have been setting the standard for over 35 years. Our advanced manufacturing facilities, combined with our commitment to research and development, ensure a steady flow of landmark products which excel in performance, reliability and style. What's more, as the only radiator business with manufacturing capability here in the UK for design radiators, we're literally on your doorstep. That means whatever you need, we'll ensure excellent availability and speedy delivery, backed up by our expert technical support and a 10-year guarantee.

Featured: Adagio 70 – Vertical

ADD A LITTLE COLOUR TO YOUR LIFE

Colour adds something special to rooms – and to radiators. Whether you're looking to complement your interior décor or simply make a statement, we've made it easier than ever to create your perfect living environment. As we're all different, we've created a large range of ready-made and tailor-made colour options to help you get exactly what you want. So now, you can choose the perfect radiator, in the perfect colour – to make that perfect room.

Ready-made colours: for style and convenience

Carefully selected to complement the stylish design of our radiators, our 'off-the-shelf' colours beautifully reflect contemporary trends, so they're sure to bring your rooms – and ideas – to life. Available within three weeks of order.

Tailor-made colours: just for you

When you need something a little more special or 'just so', our bespoke tailor-made service provides the perfect answer. Taking just three weeks from order to delivery, our extensive range of RAL colours gives you a full spectrum of possibilities. For a quote or to find out more, please ask your merchant or installer.

Please note, Forza radiators in colours will have a longer delivery time, please contact your local Quinn contact for further information.

Featured: Slieve – Horizontal in White RAL 9016

SLIEVE - HORIZONTAL

The Slieve radiator is as much of an attractive feature for your room as it is a high output radiator. With a stylish look and exceptional high quality build, the Slieve radiator is designed with sleek lines and smooth contours to complement or be a feature for any room. Slieve horizontal radiators are designed for high heat output and have convector fins.

Features

- Available in five heights from 288 – 723mm
- Available in ten lengths from 500mm – 2000mm
- Available in single, double panel plus or double convector options
- Also available in vertical option
- Manufactured and tested to BS EN 442
- Durable powder coated in White RAL 9016 paint for a brighter, whiter finish
- Full 10-year warranty
- Highlighted product codes available from stock in white
- Available in Ready-Made colours – see page 4
- Also available in over 180 RAL colours, contact your merchant or installer for details. Alternatively visit www.quinn-radiators.com for all of our colour options

Featured: Slieve – Vertical in White RAL 9016

SLIEVE - VERTICAL

The Slieve radiator is as much of an attractive feature for your room as it is a high output radiator. With a stylish look and exceptional high quality build, the Slieve vertical radiator is designed with sleek lines and smooth contours to complement or be a feature for any room. With excellent heat outputs you can now have designer style without compromising on quality.

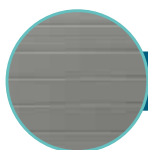

Features

- Available in three heights 1600mm to 2000mm
- Available in up to nine widths 288mm to 868mm
- Available in single or double vertical panel options
- Also available in horizontal option
- Manufactured and tested to BS EN 442
- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Full 10-year warranty
- Highlighted product codes available from stock in white
- Available in Ready-Made colours – see page 4
- Also available in over 180 RAL colours, contact your merchant or installer for details. Alternatively visit www.quinn-radiators.com for all of our colour options.

Featured: Ligna in White RAL 9016

LIGNA

The Ligna radiator is a mid point between panel and design, you get all of the features and benefits of the technology in our Hi-Lo radiators, coupled with the style and refinement of a design radiator. It's the perfect choice for those wanting the high outputs, water efficiency and flexible sizing of a panel radiator but wanting a modern, sleek profiled flat-fronted design.

Features

- Available in four heights 400mm, 500mm, 600mm and 700mm
- Available in nine lengths from 400mm to 2000mm
- Available in Single Convactor, Double Panel Plus and Double Convactor options
- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Manufactured and tested to BS EN 442
- Full 10-year warranty

Please note, this product is only available in white

LST

The Low Surface Temperature radiator is the key product for safety and cleanliness where children, the elderly and other vulnerable individuals are involved. The Quinn Low Surface Temperature Radiator casing is designed to meet the NHS Safe Surface Temperature Regulations for use in hospitals and other care facilities. The surface temperature of both our single and double panel plus LSTs conforms to the 43°C surface temperature requirement, based on a Delta T of 50°C.

The casing is made from a single sheet of steel with no visible welds or sharp edges and the emitter can be fitted with internal or external TRVs for easy and safe control. The casing is hinged to fit over the emitter radiator and is fitted with a locking device to prevent unauthorised access and allow for easy cleaning and maintenance. As a separate component, the casing can be easily retro-fitted over an emitter or replaced if damaged. The casing has a white paint finish in RAL 9016 giving a brighter, longer-lasting finish, along with an anti-microbial coating to ISO 22196 standards for additional hygiene.

LST Cover and Emitter must be ordered separately.

Packaging

The Quinn LST is supplied in two packs. The emitter is packaged in picture frame wrapping with integral protection for the backclips and wrapped in a vacuum sealed heavy duty polythene. The cover is packaged in a four-sided box to give complete protection.

Brackets

All radiators in the range are supplied with two or more brackets depending on the length per emitter and two brackets per cover. Brackets supplied with single and double convectors provide a wall clearance of 23mm.

Featured: Crystal - Straight in Chrome

CRYSTAL

A stylish tube in tube towel radiator available with a straight or curved tube design option. The Crystal towel radiator will suit a range of bathroom shapes and sizes, from the spacious family bathroom to the smallest of cloakrooms.

Features

- Available in three heights 730mm – 1730mm
- Available in two widths – 450mm & 600mm
- Dual Fuel compliant
- Available in straight and curved options
- Available in a white or chrome finish
- Manufactured and tested to BS EN 442
- Full 10-year warranty
- All product codes available from stock with excellent sales support

Featured: Pearl in Aluminium Silver

PEARL

A contemporary tube on tube towel radiator with a stylish horizontal tube finish. The Pearl offers excellent heat outputs for a towel radiator and will be an eye-catching focal point in any bathroom.

Features

- Available in three heights 770mm – 1785mm
- Available in two widths 500mm & 600mm
- Dual Fuel compliant
- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Manufactured and tested to BS EN 442
- Full 10-year warranty
- Highlighted product code available from stock in white
- Available in the Ready-Made colour range – see page 4
- Also available in over 180 RAL colours, contact your merchant or installer for details. Alternatively visit www.quinn-radiators.com for all of our colour options

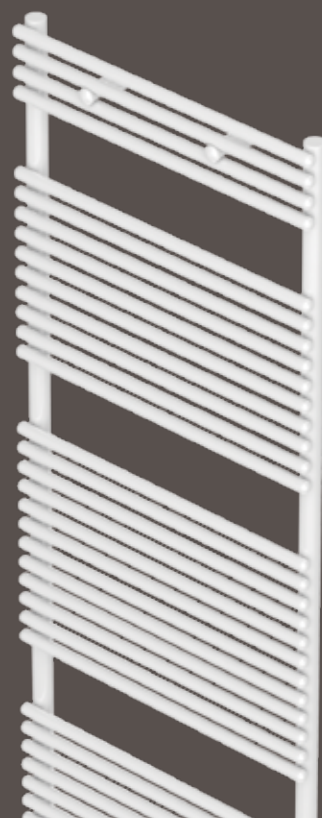

Featured: Topaz (Single) in White RAL 9016

TOPAZ

A stunning rounded tube on tube towel radiator. The Topaz will complement both modern and traditional tastes and is available in a range of sizes and colours. With high heat outputs the Topaz is also efficient at warming your room space as well as your towels.

Features

- Available in two heights 1190mm & 1785mm
- Available in two widths 400mm & 500mm
- Available in Single or Double
- Dual Fuel compliant
- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Manufactured and tested to BS EN 442
- Full 10-year warranty
- Single Topaz available in Ready-Made colour range – see page 4
- Also available in over 180 RAL colours, contact your merchant or installer for details. Alternatively visit www.quinn-radiators.com for all of our colour options

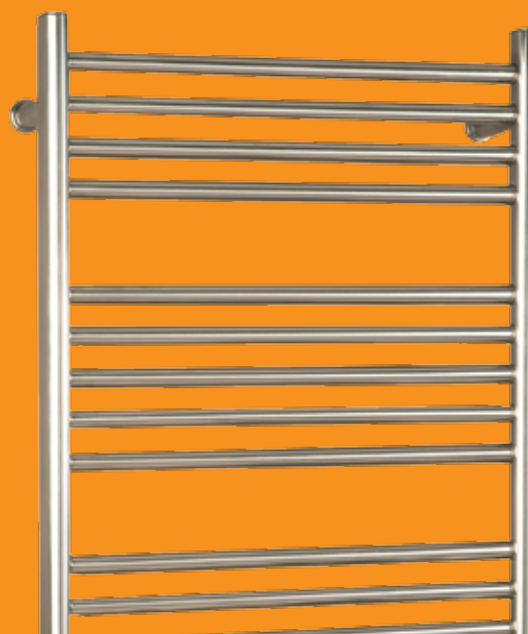

Featured: Adriana in Chrome

ADRIANA

Ideal for the contemporary home, the Adriana electric towel rail provides a versatile range of towel warmers all in a stainless steel design. With a straight bar configuration seven size options are available to choose from

Features

- Available in two heights 720mm & 1000mm
- Available in four widths 300mm - 600mm
- Chrome Finish only
- On/off switch functionality
- Full 10-year warranty
- All product codes available from stock

ACCESSORIES

Quinn Electrical Elements

Selected models can be fitted with an electrical element that allows you to use the radiator as an electric towel warmer in the summer when the central heating is off. With their lower energy requirement the towel warmers are efficient, economical and provide flexibility, convenience and comfort at little added cost. Thermostatic electrical elements have the advantage of providing an adjustable temperature control when required.

| Order Code | Thermostatic Electrical Elements | Colour | Accessory Prices |
|------------|--|--------|------------------|

**Adriana is sold with an electric element (factory fitted).*

GENERAL SPECIFICATION

The outputs quoted in this publication are based on a Delta T of 50°C. To calculate outputs at different Delta T's the following formula should be applied:

$$\text{Flow Temp (°C) + Return Temp (°C) / 2} = X$$

$$X - \text{Required Room Temp (°C)} = \text{New Delta T}$$

Example:

Add flow water temperature (75°C) and the return water temperature (65°C) together (140°C), divide by two (70°C) and then subtract the room temperature (20°C). This will give you a Delta T factor of 50°C.

| Degrees Centigrade | | | | | |
|---|------|--------|------|--------|-------------|
| Delta T factors in °C and °F other than 50°C (122°F), Exponent n = 1.3 | 5°C | 0.0501 | 30°C | 0.5148 | 55°C 1.1319 |

Material & Finish

All Quinn radiators are manufactured from high quality steel. The radiators are then finished with Epoxy Polyester Powder paint.

Quality

All radiators are manufactured under a BS EN ISO 9001:2008 Quality System accepted by BSI and are manufactured and tested in accordance with EN 442.

Packaging

Every radiator is protected top and bottom over the whole length and height with heavy cardboard box ends and packed in HD polythene.

Connections

Each radiator* is manufactured with four 1/2" BSP connections. Vertical radiators are manufactured with a factory fitted fully sealed baffle in the centre of the connected header. Flow and return is not handed.

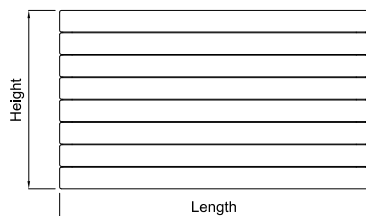

Installation

It is strongly recommended on completion of the installation, the system should be properly flushed and filled-in accordance with the British Standard Code of Practice for the Treatment of Water in Domestic Hot Water Central Heating Systems BS 7593. Use of a corrosion-inhibitor is strongly recommended. Failure to observe this recommendation will invalidate the manufacturers warranty. An installation sheet is included with all radiators, we strong recommend referring to these during installation.

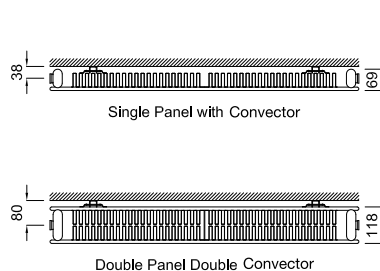

Warranty

All radiators are supplied under warranty for a period of 10 years in respect of defective materials or manufacture. The standard conditions of sale apply to all transactions. A copy is available on request.

ORDERING GUIDE

Ready-made colours: for style and convenience

Carefully selected to complement the stylish design of our radiators, our 'off-the-shelf' colours beautifully reflect contemporary trends, so they're sure to bring your rooms – and ideas – to life.

Our colour range can be applied to most radiators.

1. Choose your radiator
2. Identify the product code
3. Simply add colour code 'RAL' to the end.

For example

| Selected Product | Product Code |
|-----------------------|--------------|
| Adagio 1800x350 White | QS351835W |

Replace the W with the colour code 'RAL' and state the colour required with your order.

| Selected Product | Product Code |
|--------------------------|--------------|
| Adagio 1800x350 Gunmetal | QS351835RAL |

If no letters are listed after the code, simply add RAL.

Please ensure you state which RAL colour you require when ordering.

WE ARE HERE TO HELP

At Quinn we have a dedicated sales team at our manufacturing plant, who are on call for you, when you need us. Our team are highly trained in the radiators you buy and will be able to support you on any questions or enquiries you may have.

You can contact our sales team to place orders or for general enquiries during office hours, at 1800 882 332 .

If you would prefer further information, downloads or would simply like to browse our ranges online please visit us at www.quinn-radiators.com
